Re: Geauga County, Ohio  
Munn Road Widening  
Section D

**FPS**

Gentlemen:

During the initial phases of field survey work for the above referenced project, we recovered three Geauga County geodetic survey monuments. The monuments numbers are 592, 586, and 564.

The condition of these monuments are good; however, we discovered a discrepancy with the record elevation on monument Number 564. The record elevation is listed as 1195.80. We observed an elevation of 1195.67.

This letter is to notify you of the discrepancy with these elevations. Therefore, we will note the observed and record elevation on the plans.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

Brent M. Winslow, P.S.
